Tribute

Virtual Yearbook Signing Pages

Just because we can't be at school due to COVID-19, it doesn't mean you can't get our "yearbook" signed. Balfour is teaming up with Tribute.co to make it easy for students to collect fun videos from their friends and family members. The Tribute platform helps each student to create their own "virtual signature page" where they can easily collect video stories, photos and messages of support from their community. Your custom url can be shared out via text, email and through social media. Best of all, you'll even have the ability to edit your footage together and download a high resolution keepsake that you can hold onto forever. Just because you can't be with your friends physically, doesn't mean you can't collect the meaningful messages that you'd normally find in your yearbook

We are excited to announce a partnership with Tribute to give students everywhere a free virtual yearbook signing page! This program will allow students to sign up and share a virtual page for friends and classmates to submit video message. Once all messages have been submitted, a student can create a video montage of the messages received. **[Tribute.co](https://www.tribute.co) is teaming up with us to give away their \$25 DIY version for free for Spring 2020. Just head to www.tribute.co/balfour to get started.** *When you sign up on this page, the \$25 fee will be waived after the videos have been collected and produced. You can also use the code Balfour2020 at checkout to receive this free offer.*
